\$17,000 damage to 4 Haliburton businesses on weekend

HALIBURTON — Sometime between the hours of 1:30 am and 3:30 am vandals broke into four Haliburton business establishments on Maple Avenue and did an estimated \$17,200 in damage.

Hardest hit was the Haliburton Hairdressing shop, owned and operated by Marion Teatro. The shop was entered through a back door and nearly every piece of equipment along with all the hair dressing supplies were destroyed. Also destroyed was the store front window and damages are estimated at \$10,000.

Black's Home Hardware was next hardest hit, with more than \$5,000 damage done. The store was entered and various windows smashed. Inside, stock was damaged, cash registers were damaged and a Winchester .22 rifle and ammunition were stolen. The rifle was fired inside the store through a window in the side door of Black's and the bullet came to rest above the front doors of Bishop Law offices across the street. Police report that the rifle had been fired at least 15 times in all, some through broken windows and others at paint cans in the building.

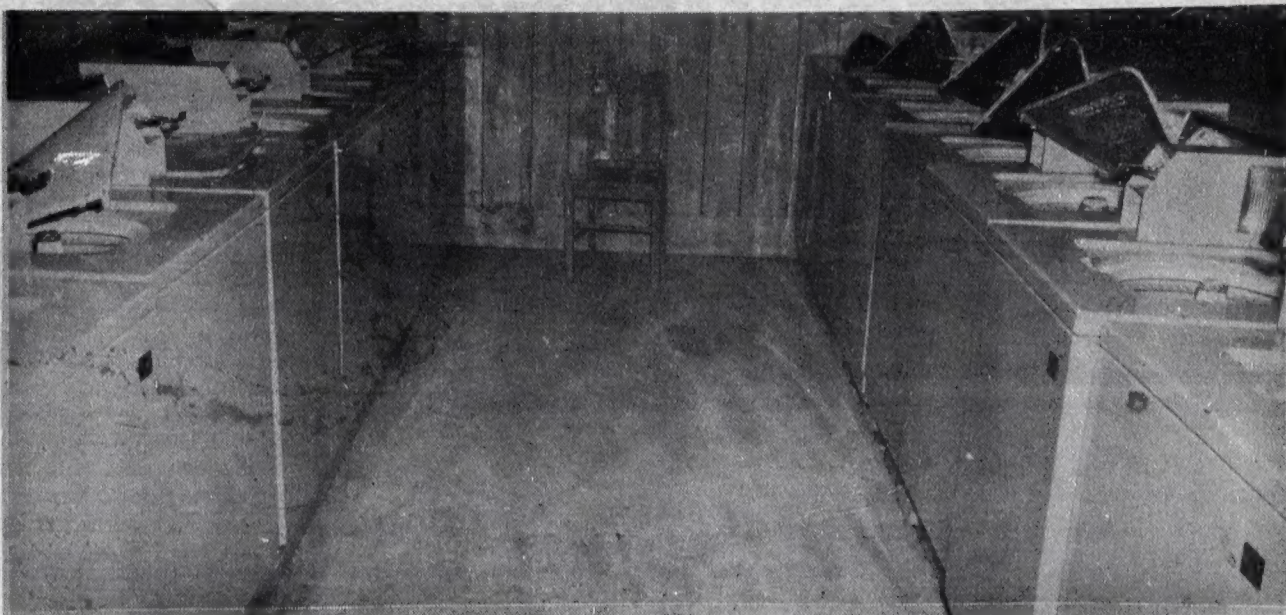

Two cash registers were damaged extensively as the vandal or vandals tried to pry them open. A knife was used on the cash registers and it was removed from a display case that was also smashed. Rifles and shotguns that had been locked by cable near the ceiling were also torn off the wall. Owner Ken Langdon, told the Express on Sunday, "I should have taken the summer off, because anything I did make in profits is now gone." "Maybe I should get a couple of Doberman's and turn them loose in here during the night, he said.

Haliburton Laundromat, owned by Sid Cooper of West Guilford was also broken into by forcing a door at the rear of the building. All of his 35 washers and dryers were damaged by having the doors twisted out of shape. Police estimate more than \$1,500 in damages to the machines.

To top off the evening, the person responsible then crossed over to Curry Motors and smashed one of the large bay windows of the showroom and kicked in the glass side door. Damage here was set at \$500. OPP along with the Toronto branch of Forensic Sciences were on the scene all day Sunday. No suspects as of press time had been apprehended. The investigation continues by Minden PC Mike Maher.

HALIBURTON HAIRDRESSER — \$10,000 DAMAGE

HALIBURTON LAUNDROMAT — \$1500 DAMAGE

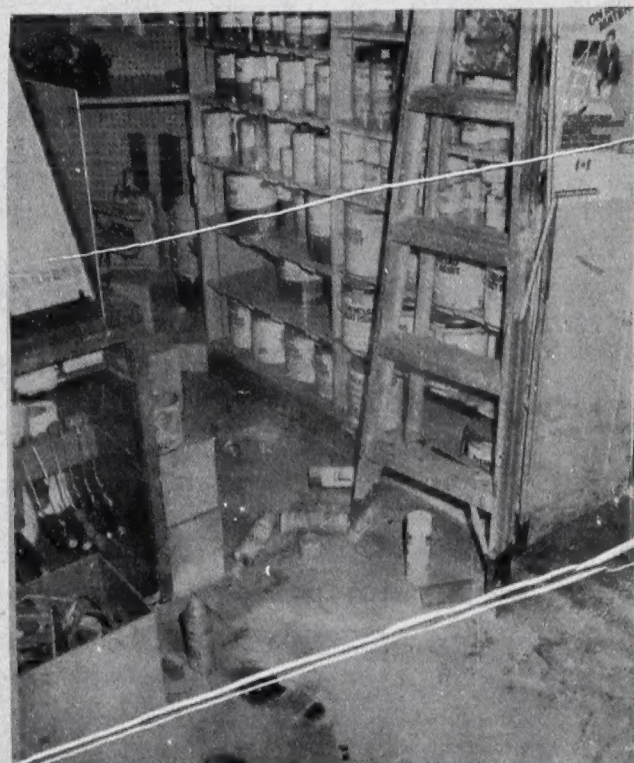

★ BULLETIN ★

MINDEN OPP NAB SUSPECT

MINDEN — At 8:30 pm Monday, Nov. 5th, Minden OPP have arrested an Oshawa man in connection with the break-ins of four Haliburton businesses on the weekend. The arrest of Eric Calvin Smith 18, of Conlin's Road East in Oshawa came just 29 hours after more than \$17,000 damage was done to the properties of the Haliburton Laundromat, Haliburton Hairdresser, Black's Home Hardware and Curry Motors Ltd.

Smith was picked up Monday by Minden OPP investigating officers, Constables Reg Eviligh and Mike Maher. Police report that Smith was to appear in Minden court Tuesday morning, Nov. 6th for bail hearing.

The rifle that was taken from Black's is still outstanding and OPP would appreciate anyone who finds the Winchester .22 to give them a call immediately. They suspect that it is somewhere here in the county. The ammunition that was taken has been recovered.

BLACK'S HOME HARDWARE — \$5,000 DAMAGE

CHEVROLET'S NEW TURBOCHARGED MONTE CARLO FOR 1980 — is easily recognized by special hood with raised rear centre pod and "turbo" lettering. A similar nameplate is positioned inside on the instrument panel. The turbocharger increases power about 47 percent to a maximum 170 horsepower. The 3.8 litre turbocharged V6 engine is available with automatic transmission. The Monte Carlo [shown] has optional lift-off panels, or "T" roof. New styling touches include dual rectangular headlamps, large-segment grille, rectangular dual-section parking lamps and front side marker lamps. High intensity headlamps are a new option. Monte Carlo Sport and Landau Coupes feature a new, lighter, base V6 engine and a fuel-efficient torque converter clutch system.

1980 Monte Carlo

OSHAWA, Ont. — The new V6 turbocharged engine. Offered in two model lines — the Sport Coupe and the two-door Landau Coupe — the Monte Carlo's front end

features a dramatic new appearance with attractive large segment egg-crate styled grille flanked by symmetrical side-by-side rectangular headlamps.

The Monte Carlo's 3.8 litre turbocharged V6 engine marks the first use of a regular production turbocharged induction system in this car line. Estimated output for the V6 Turbo is 170 horsepower with torque rating of 265. Bore and stroke are the familiar 3.80 and 3.40 inches, respectively, resulting in a total 231-cubic inch displacement.

How does it work? The turbocharger forces a dense air/fuel mixture into the combustion chamber. The ignited dense fuel mixture delivers more power per piston stroke than a non-turbocharged engine increasing horsepower to 170 — a boost of approximately 47 percent in maximum power over the non-turbo version.

The turbocharged Monte Carlo is readily recognizable by the special hood with raised rear centre pod and specific turbo identification. Inside the passenger compartment, a brushed chrome-

Watch for deer motorists warned

An urgent warning to motorists to watch out for deer on southern Ontario roads was issued today by Natural Resources Minister James Auld.

More than 700 deer are killed annually on roads in the province, Mr. Auld said. Most of the deaths occur in early spring and during the October-November breeding season.

The regions of Halton, Waterloo, Brant, Hamilton-Wentworth, and Wellington County west of Metropolitan Toronto have the highest concentration of road kills in the province, with 325 deer deaths being attributed to car-deer collisions.

Gary Tupling, fish and wildlife supervisor at the Ministry of Natural Resources Cambridge office, said most of the deaths happen at night when deer are blinded by approaching headlights. He cautioned motorists to drive slower, especially at this time of year when more deer come out in the open.

"A U.S. report that says four per cent of the deer-vehicle accidents cause injuries to occupants and an average \$770 in damages to the automobile, is also applicable in Ontario," said Mr. Tupling.

He said there have been so many deer kills on roads he has had to hire a man just to pick up carcasses.

"At this time of year, the casualties are mostly bucks while in the spring they are usually pregnant does," he added.

Mr. Tupling said the ministry provides the Human Ecology Foundation in Hamilton with the deer meat as well as with other freshly-killed wildlife. The Foundation supplies the meat to people in the area who cannot eat domestic animal meat because of allergies.

"If the meat is unfit for human consumption, we send it to Ontario universities that request carcasses for research purposes or dispose of it," he said.

Although most deer kills occur in southern Ontario, near Toronto, about 80 a year are reported in the ministry's Huronia District, which includes Barrie and Midland.

Carman Douglas, the regional biologist at Huntsville, said that in his area, which includes Algonquin Provincial Park, only 25 to 30 deer deaths and five or six moose deaths are reported each year.

But in Northern Ontario where moose are common, animals wandering across roads are a serious threat to motorists.

"Because not all road kills are reported, the ministry cannot get an accurate count," said Mr. Auld. "But in 1976, for instance, conservation officers reported 52 moose killed on Ontario roads with the average vehicle damage the same as in collisions with deer."

Stanhope Council passes "No Parking" by-law for Centre

STANHOPE — At a special evening meeting of the council of Stanhope last Thursday, a no parking by-law was proposed by by-law enforcement officer Jim Moore for the Stanhope Community Centre, and accepted by council.

The new bylaw prohibits parking on what is known as the community centre parking lot but public parking will be allowed in the Stanhope Library parking area and will be so posted.

Mr. Moore, Stanhope Fire Chief George Wilson and Roads Superintendent Marvin Brown were all in agreement, that a no parking bylaw was needed at the community centre because of certain emergencies that come up and unauthorized vehicles parked near the fire door or the roads department shed could cause serious delays.

Council was wholeheartedly in favour of the proposal and passed the bylaw. All unauthorized motor vehicles parked on what is known as the community centre parking lot are now in danger of being removed at the owners expense. Council advised Mr. Moore to go ahead with ordering the appropriate signs needed to enact the new bylaw.

Halloween party at Rockcliffe Hotel

MINDEN — Each year at Halloween, Dave Willis, owner of the Rockcliffe Hotel puts on a Halloween party with prizes for the best costumes worn and also a top notch band to entertain the patrons. This year was no exception, as more than 100 costumed people turned out for a great evening. Everyone was there, the Hulk, Superman, The Wizard of Oz's Tinman and Scarecrow, a couple of Vikings and even Rene Levesque turned up from Quebec. Winner of the best costume went to John Cooper and his very authentic "tin man" outfit. The best dressed couple were the Vikings, shown below with other finalists, the Harem girl, Superman (Pattie and Paul Prentice) and the Football half-back and cheerleader (Linda and Stuart Brandon).

Grader backs over fender, driver charged, \$3000 damage

MINDEN — OPP investigated three reportable motor vehicle collisions this past week, with \$6,800 in damages set, two drivers charged and one woman injured.

Early Saturday morning near Tory Hill, Lynne Gregoris 30, of Bancroft was westbound on Hwy. 530 following a grader belonging to Bott Construction Company. When the grader stopped and started to back up, Gregoris put her car in reverse to get out of the way, but the left rear tires of the grader ran up and over the front of her car. Damage, \$3000.

OPP report that the grader operator, Kenneth R. Webster 57 of Gooderham has been charged with careless driving. PC Bill Clendenning.

DRIVER INJURED AND CHARGED

On Tuesday morning at 3 am, a pickup truck westbound on Hwy. 121 near Wilberforce, entered the south ditch colliding with a stone and then a tree. Driver, Marlin Dickenson of Bancroft suffered minor injuries in the mishap.

Police report that there was \$3000 damage to the pickup and that Dickenson has been charged with failing to report a collision forthwith and also with careless driving. PC Bob Wood.

TWO VEHICLE COLLISION IN STANHOPE

On Saturday on Hwy. 35 in the Township of Stanhope, a two vehicle collision resulted in \$800 damage to a 1972 pickup and \$25 damage to some guide posts.

David Lawson 24, of Hamilton was northbound in his truck when he collided with some guide rails in an attempt to miss a car driven by Edward Whiteway of Haliburton.

Whiteway was backing out of a driveway onto the highway when his car engine stalled. In an attempt to miss the Whiteway car, Lawson lost control of his truck and hit the rails. No injuries or charges were laid. PC Bob Pearson.

Eakins approves All-Ontario "pitch in day" on landscape

Victoria-Haliburton MPP John Eakins has given Ontario Government his endorsement of Bill 134, which among other things, has to do with a general clean-up of roadsides, of litter and garbage.

A private members bill proposed an "All Ontario Pitch-in-Day" whereby all Ontarians, young and old, will be asked to get out and clean up the Ontario landscape. The bill was made by Liberal MPP Mr. G. I. Miller.

Mr. Eakins stated in the legislature, "I think its very important when we are talking about pollution today that we consider also the pollution of the landscape. Unfortunately, many people think only of the pollution of water and pollution of the air. One of the big problems we tend to forget is the pollution of the landscape."

He went on to state, "I am very familiar with many of the municipal initiatives. I know in my own home town of Lindsay, the council there has shown a great deal of initiative and is doing a great deal in regard to downtown renewal."

He concluded his remarks stating, "I believe that one of the areas in which we can give this a greater profile and greater priority is through an increase in the highway litter and sanitation disposal stations. Sometimes when we travel to other provinces we see that they have made it very attractive to put our litter into well lettered and brigh containers, which I think helps the situation a great deal."

Listowel man drowns when boat overturns, Campcot Lake

DORSET — Norman James Dickson 49, of Listowel, Ontario was out fishing around 4:30 pm on Saturday with a companion, William M. Mitchell of Bluevale, Ont., when the 12' aluminum boat they were using overturned. Mitchell swam about 30' to shore and did not see Dickson who was a non-swimmer.

Minden OPP report the body was recovered at 11:08 am on Sunday, Nov. 4th by divers Bob Pearson and PC George of Lindsay OPP. Investigation is being conducted by Cpl. D. Stevens and PC Ron Buchanan of Minden.

Motorcycle, stereo recovered

About 2:15 pm on Saturday afternoon, November 3rd, Minden OPP received a call to check an insecure cottage on Schylers Island.

As a result of this call and the subsequent investigation by PC Barry Connelly, a 750 Honda was recovered and also a stereo set. Both items had been stolen earlier in the year, the motorcycle from London and the stereo from Yellowknife, NWT. Value of the property was set at \$2,000.

Get the best traction, better action
in snow, slush, mud, on ice.

Uniroyal Steel Belted
Radials M+S "Plus"

49.50 ea. INSTALLED
Size 155R12

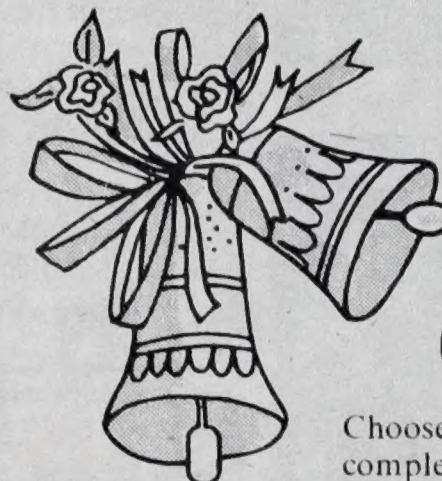

It's a jig-saw puzzle tread pattern with a purpose: so irregular and so deep that each movement of the tire puts down a new, fresh, firm, bite in snow, in slush, in mud and on ice. The tread compound has a new resilience that's awfully combative towards winter road hazards. The steel belts are butted, end-to-end. They're on perfectly straight and dead centred. And with all that, the M+S "Plus" delivers the quietest, smoothest snow tire ride.

- 1 Irregular tread lugs—set like unmatched puzzle pieces—account for the quiet, smooth ride.
- 2 Deep slashes by the hundreds form suction cups that grab and cling to pavement slick with rain, slush and snow.

SCOTT RUSSELL SCORES

Minden Minor hockey season swung into action on Sat. afternoon with four games being played from novice to bantam. Above, young Scott Russell of the novices intercepted a Fenelon Falls pass in his own end and skated the length of the ice to score this picture goal. The novices downed Fenelon 3-0, with Jeff Francis scoring twice.

Council reports on year's activities

The Ontario Advisory Council on the Physically Handicapped today released its Fourth Annual Report, highlighting the work of the Council between April 1, 1978 and March 31, 1979.

The Council, established in 1975, advises the Provincial Secretary for Social Development, the Honourable Margaret Birch, on matters that affect the well-being of physically handicapped persons.

Jack Longman, Chairman of the Advisory Council, said that two new Ontario Government programs, announced recently, were developed in part from Council recommendations: the Province's decision to contribute to municipalities 50 per cent of the costs of providing specialized public transportation to the disabled, and a new work incentive program designed to help disabled people reduce their dependence on social assistance.

"I am delighted with the Province's response to our concerns", said Mr. Longman. "There is no question that the physically handicapped have a voice through our Council." More than 90 per cent of Council's recommendations have been implemented, partially implemented or are still under consideration by the Government.

Mr. Longman said that government cannot provide all the solutions to problems of the disabled. "Our greatest hope", he said, "lies in an aware public that wants to work with the physically handicapped in their quest for a better life."

The Council's report outlines recommendations made to Government on a number of major issues, including vocational rehabilitation services, accommodation and

support services, and proposed amendments to the Ontario Building Code.

"We are also very pleased with the Province's appointment of a Co-ordinator of Rehabilitation Services in the Secretariat for Social Development", Mr. Longman said, "to act as a link between the Council and all the government ministries involved in providing programs and services to disabled people. This kind of co-ordination can only result in more effective integration of rehabilitation services".

Ask Alma

Dear Alma:
I read in the Sunday paper that a company is marketing a male dummy that one can inflate and prop up in the front seat for solitary late-night drives. The intention is that anyone with trouble in mind would not bother a car with two people in it, whereas a lone driver is more vulnerable.

I am a petite female who works the night shift and I want to buy the dummy for security. My burly husband laughed at the idea but got angry that I would consider wasting money on such a thing. After an unproductive argument we decided to ask you. Please comment. — Scared Silly?

Dear Scared (but not silly):

By all means, buy the inflatable companion. Your husband should not blow up at your insecurity. The

gadget is a reasonable investment for a little peace of mind for you and will not take anything away from the burly dummy at home.

Dear Alma:

I'm very bored. I have a tennis court and a swimming pool, but no one to play with. I'm not an only child. I have four brothers, but they all go off on their separate ways. What can I do to get rid of this boredom? — Mary.

Dear Mary:

A famous poet, Robert Louis Stevenson, said: "A friend is a present which you give yourself." Don't wait 'til your birthday; treat yourself to a pal, gal!

Such a gift can be located in your classroom, at the local 'Y' in Camp Fire Girls, Girl Scouts or even next

door. Skip the ribbon and tissue paper; just find someone with whom you enjoy sharing your thoughts, your dreams, your pleasures and, lucky you, your tennis court and swimming pool.

write and to share. However, my letter box is open to all males. Thanks for writing.

HAVE A QUESTION?
Write to ASK ALMA, P.O. Box 43, Closter, NJ 07624 and watch for the answer in this column.

Dear Alma:
Seems to me that most of your mail is from women. How come? — Martin K in Bethesda.

Dear M:

Women seem to be more articulate about their problems and find it easier to

We treat you royally

Do's and don'ts of heating with wood.

How to heat your home safely with wood fuels.

With energy costs rising, many Ontarians are rekindling an old flame—wood fires. Wood used properly can provide a cheap, clean renewable heat source. Used improperly, however, wood burning can be dangerous.

Whether your stove is of ornate design or a more modern stove, they both have one thing in common: they each need proper installation. Here are some of the do's and don'ts on heating with wood:

☐ DO — BUY only units which have been certified for wood use, by the Canadian Standards Association (CSA).

or the Underwriter's Laboratories of Canada (ULC).

☐ DO — HIRE an expert to certify that your flue pipe and chimney are in good condition to handle the higher temperatures.

☐ DO — CONTACT your insurance agent before installing the system. Be sure you're covered in case of fire.

☐ DO — CHECK with your municipality before any work begins. You'll probably need a building permit.

☐ DO — ENSURE adequate clearances are provided as listed in the Ontario Building Code and other guides available at your local library.

☐ DON'T — USE flammable liquids when lighting the fire...like gasoline, kerosene or charcoal lighter fluids. Wood

chips, kindling, shavings or newspapers are the safest startup materials.

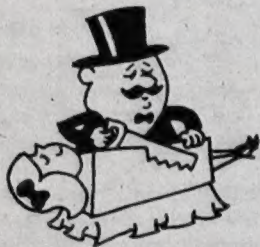

☐ DON'T — KEEP any flammable materials near your wood burner.

☐ DON'T — FORGET to clean your stovepipes and flues regularly to avoid dangerous flammable build-up.

☐ DON'T — TAKE CHANCES WITH FIRE. Teach your children about fire safety too. If you have any further questions about heating with wood fuels, contact your local Fire Department, or write for the free guide titled:

"Heating with Wood Fuels"

Addiction Research Foundation opens new Employee-Assistance Centre

Employee Assistance Programs, the plan through which the Addiction Research Foundation helps Ontario's work force with alcohol and drug problems, has a new centre of operations.

EAPs are available to employees of about 350 Ontario business organizations and the new centre, at 33 Russell Street in Toronto, will be the focal point, consolidating all the resources in one spot. ARF has 37 regional offices which will work with the new centre to develop local employee programs for any firm requesting assistance.

Dr. John Macdonald, president of ARF, said that the new centre reflects a change in priority in his agency. He said these pro-

grams are aimed at prevention — catching the drinking or drug problem before it results in further disintegration of personal, inter-personal, family and financial resources.

The director of the new centre is ARF veteran Catherine Dixon, who says that the centre will serve as a catalyst in encouraging more organizations to establish EAPs and to that end, the staff will work with organized labor, employers and government.

Health Minister Dennis Timbrell is a strong supporter of the program. "The cost of excessive alcohol consumption is enormous," he said. "It is estimated that \$320 million were spent in 1976 in Ontario for addi-

tional medical treatment due to alcohol-related problems. About \$75 million represented losses due to reduced labor productivity and \$3 million in lost-time wages."

EAPs have been in operation since the early 1950s and they work to change all that. They offer assistance to employers and employees in dealing with alcohol and drug-related problems and their success rate can be as high as 60 to 80 per cent.

The program plays an important role in Ontario where six per cent of the population are problem drinkers and where at least 30,000 vehicle accidents each year occur when the driver is impaired or has been drinking.

**Ontario to discontinue smallpox vaccination
Timbrell tells hospital meeting**

TORONTO, October 30 — Ontario will discontinue smallpox vaccination following a World Health Organization declaration that the disease has been eradicated.

Health Minister Dennis Timbrell told delegates to the Ontario Hospital Association Conference that the last case in the world was

diagnosed two years ago and there has not been a case found in Ontario since 1962.

"But I doubt there is one person in this room who has not been vaccinated for smallpox and I would wager that many of you have had some direct contact with smallpox victims," the Minister said.

Smallpox epidemics were a major health problem in Canada in the early part of the century and particularly following the First World War.

Although Ontario health units will no longer be supplied with vaccine, Mr. Timbrell said supplies are being stockpiled in London, Atlanta and Moscow in case of future outbreaks.

The Health Minister said health care personnel involved in day-to-day hospital activities often forget the advances of health science and he called the eradication of smallpox a milestone in human progress.

**You're
Cooking**

An economical meal makes use of abundant fresh vegetables. Broccoli, carrots and onions are combined in a cheese sauce as a topping for all-American corn bread. The corn bread has its own special flavor from finely chopped cooked ham. Add a Waldorf salad and serve homemade chocolate chip cookies and ice cream for a satisfying, easy-to-make dinner.

CHEESED CORN BREAD

Corn Bread

- 1 cup enriched corn meal
- 1 cup sifted all-purpose flour
- 2 tablespoons sugar
- 4 teaspoons baking powder
- 1/2 teaspoon salt
- 1 1/2 cups finely chopped cooked ham
- 1 egg
- 1 cup milk
- 1/4 cup vegetable oil
- Vegetable Sauce
- 1/4 cup chopped onion
- 1/3 cup butter or margarine
- 1/3 cup all-purpose flour
- 1 teaspoon salt
- 1/8 teaspoon pepper
- 1 3/4 cups milk
- 2 tablespoons grated Parmesan cheese
- 2 cups (8 ounces) shredded Swiss cheese
- 1 1/2 cups cooked broccoli
- 1 cup sliced cooked carrots

For corn bread, sift together corn meal, flour, sugar, baking powder and salt. Stir in ham. Add egg, milk and oil; mix well. Pour into greased 9-inch layer pan. Bake in preheated 425-degree oven about 30 to 35 minutes. Cool 15 minutes; remove from pan. Cut corn bread into six wedge-shaped pieces.

For sauce, saute onion in butter. Blend in flour, salt and pepper. Gradually add milk. Cook over low heat, stirring constantly, until thickened. Stir in Parmesan cheese and Swiss cheese until Swiss cheese is melted. Add broccoli and carrots. Heat thoroughly. Do not let boil.

To serve, split each corn bread wedge in half crosswise. Fan out on plate. Spoon sauce over corn bread. Serve while hot.

Down Lakefield Grove 10-6

Haliburton Redmen win Kawartha A Football Championship

Redmen defence stops Lakefield

Like they have so often this season, the Haliburton Redmen defence came up very strong again last Thursday afternoon in the Kawartha 'A' championship game, shutting down a tough Lakefield Grove offence throughout the game. Lakefield managed just two field goals. Haliburton's 1979 season and playoff record ended up 7-0 with their 10-6 victory.

LAKEFIELD — The Haliburton Highlands Secondary School's senior Redmen football season was down to 19 seconds, and they were losing 6-3. To top that, Lakefield College Grove had the ball. However, the Redmen had come up with super performances all season and although this was the first time they had been behind, their spirit and determination came through when it really counted.

With one minute remaining on the clock, Redman QB Tim Davies was about to try a 25 yard field goal to tie the game 6-6. However, Davies missed by inches and Lakefield ran the ball out to the 21 yard line and that appeared to be the season for the Haliburton squad.

But, Ed Roberts crashed through the Grove line and blocked the punt and the ball bounced up in the air, he caught it and fell into the end zone for the winning points. Davies kicked the convert and the final score was 10-6 giving the Redmen the championship for the second time.

"That positive attitude really came through with 19 seconds left, said coach Brohman following the game. These boys just don't know the meaning of the words give up."

The game was a classic defensive battle from the outset. The first quarter was scoreless. The second saw Lakefield go in front 3-0 on a 25 yard field

Bell's win Mr. and Mrs.

The zone finals of the Mr. and Mrs. Bowling Tournament were held Sunday afternoon at the Carnarvon Lanes. Dave and Mary Bell of Carnarvon were named the champions, beating out 14 other teams from throughout the district.

The tournament, which is an annual affair, pits husband and wife teams against their own averages. The Bells led the way by scoring 234 points better than their last year's average. Other teams and their scores include: Jean and Cecil Wiggins of Bancroft,

155; Alec and Jean McMullen of Fenelon Falls, 132; Steve and Ann Barton of Fenelon Falls, 98; Susan and Bill Beers of Carnarvon, 92; Dale and Ada Clauson of Fenelon Falls, 76; Lil and Fred Wooler of Havelock, 47; Myrtle and Elgin Danford of Havelock, 38; John and Karen MacLean of Fenelon Falls, 36; Yvonne and Art Henry of Havelock, 34; Joanne & Doug Robinson of Carnarvon, 33; Wally and Sheila Everett of Fenelon Falls, 33; Shirley and Paul LeBlanc of Bancroft, 18; and Walter and Betty Young of Fenelon Falls, 8.

goal. Davies got a third of those points back two minutes later when he boomed a towering 55 yard single that caught Lakefield flat-footed.

Haliburton cut the lead to 3-2 early in the third when they had a fine drive going but finally Grove dug in, stopped them and Davies hit for another single. Near the end of the third, Lakefield put together a sustained drive to the Redmen 20 yard line where they came away with another three-pointer to go ahead 6-2.

The top ground gainer on the game for Haliburton was Davies who carried the ball 20 times for 89 yards. Although Roberts was the hero of this contest the entire team came through superbly for their coaches. Congratulations on your fantastic year!

Poppy Week is Nov. 4 to 10, 1979 and Saturday, November 10 is Poppy Day.

Hartwick Const. favourite in upcoming men's rec. hockey

MINDEN — This winter on Monday nights the newly formed non-body contact men's recreational hockey league will play its games. To date the four-team league has played two exhibition games each and the league schedule begins Monday at 8 pm.

If the exhibition schedule means anything at all, the Hartwick Construction entry appears to be the strongest team of a well balanced league. However, there are some players who haven't joined their teams yet so this could make the league even more equal. Other entries are Minden Home Hardware, Floyd Hall Insurance and the Rockcliffe Hotel.

The teams were formed by putting all those interested in playing on a slate and team representatives picked players in order, thus the balance and also instant parity.

Hartwick Construction won both their exhibition games 6-4 over Home Hardware and 10-3 over Floyd Hall Insurance. Hall then down Rockcliffe Hotel 4-3 but the Hotel edged Home Hardware 4-3 also.

THE CORPORATION OF THE TOWNSHIP OF STANHOPE

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE CORPORATION OF THE TOWNSHIP OF STANHOPE TO STOP UP, CLOSE AND CONVEY THAT PORTION OF THE OLD TOWNSHIP ROAD SITUATE IN LOT 11, CONCESSION 9, IN THE TOWNSHIP OF STANHOPE.

NOTICE IS HEREBY GIVEN, pursuant to Chapter 284, Sec. 443 of The Municipal Act, R.S.O., 1970, as amended, that the Township Council of The Corporation of the Township of Stanhope proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Municipal Office, in the Township of Stanhope, on Wednesday, December 5th, 1979, at 3:00 p.m., a By-law to Stop Up, Close and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Stanhope, in the Provisional County of Haliburton, being composed of part of Lot 11, Concession 9, in the said township, and which said parcel or tract of land is more particularly described as follows:

PREMISING that the bearings herein are astronomic and derived from Plan 19R-1592.

COMMENCING at a point which is distant 7.58 feet measured on a course of South 20 degrees 22 minutes 30 seconds East from a point in the Northerly limit of the said Lot 11 which is distant 159.55 feet measured Easterly thereon on a course of North 70 degrees 35 minutes 30 seconds East from the North Westerly angle thereof;

THENCE North 89 degrees 07 minutes East, 82.46 feet;

THENCE South 49 degrees 54 minutes East, 101.67 feet;

THENCE North 69 degrees 43 minutes East, 128.51 feet;

THENCE North 59 degrees 23 minutes East, 100.21 feet;

THENCE South 78 degrees 24 minutes East, 89.3 feet;

THENCE South 30 degrees 46 minutes 05 seconds West, 31.72 feet to a rock post;

THENCE South Westerly along a curve to the right having a radius of 623.19 feet, an arc distance of 38.59 feet, and having a chord equivalent of 38.59 feet when measured on a course of South 32 degrees 32 minutes 32 seconds West;

THENCE North 78 degrees 24 minutes West, 39.61 feet to an iron bar;

THENCE South 59 degrees 23 minutes West, 80.70 feet to an iron bar;

THENCE South 09 degrees 43 minutes West, 172.88 feet to an iron bar;

THENCE North 49 degrees 54 minutes West, 115.4 feet to an iron bar;

THENCE South 89 degrees 07 minutes West, 34.43 feet to an iron bar;

THENCE North 20 degrees 22 minutes 30 seconds West, 70.01 feet to the Point of Commencement.

WHICH SAID parcel or tract of land may be further illustrated shown outlined in red on a plan by Paul Wilson, O.L.S., dated October 25, 1979, and which said plan of survey may be examined at the Municipal Office of the Township of Stanhope;

AND FURTHER TAKE NOTICE that before passing the said By-law at its meeting to be held at the time and place above mentioned, the Township Council of The Corporation of the Township of Stanhope shall then and there hear in person, or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said By-law and who applies to be heard.

DATED AT the Municipal Office of The Corporation of the Township of Stanhope, this 26th day of October, 1979.

GERALD BAIN,
Clerk of The Corporation of
the Township of Stanhope

Old Age Security Act Amendments

OTTAWA—Two amendments to the Old Age Security (OAS) Act were introduced in the House of Commons today by the Honourable David Crombie, Minister of National Health and Welfare.

One amendment is aimed at recipients of the Spouse's Allowance who now face termination of the benefit if the older pensioner spouse dies. The other amendment deals with OAS beneficiaries who are sentenced to prison and suffer the suspension of their benefits during that time.

The amendment to the Spouse's Allowance program represents fulfillment of a Progressive Conservative campaign promise to remove the provision whereby the Allowance is terminated six months after the death of the older spouse. The Spouse's Allowance was originally designed to assist low-income couples where only one is an OAS pensioner and the other is between 60 and 65. In cases where the pensioner spouse dies, however, the program has had the effect of seemingly offering financial security to benefit recipients and then abruptly removing that security at a particularly sensitive time.

With the amendment, Allowance recipients whose spouse dies will continue to may continue to be paid until they turn 65 and qualify for OAS in their own right, or until they remarry or die. The continued entitlement will also apply to persons whose spouse died in the six months prior to Royal Assent. The amount of the Allowance will be calculated on the basis of the recipient's personal income.

The second amendment will remove the provision whereby OAS benefits are suspended if a pensioner is sentenced to prison for more than 90 days. Although few persons are affected by this provision, its application has been the source of inequities, in that OAS pensioners face double punishment for their crimes — loss of benefits and imprisonment. Also, spouses of prisoners have lost their entitlement to the Spouse's Allowance benefit at the same time as the prisoner's OAS payments ceased.

For persons sentenced on or after the date of Royal Assent to the Bill, OAS benefits will continue to be paid during imprisonment, and entitlement of prisoners' spouses to the Spouses' Allowance will also continue.

The two amendments will benefit more than 2200 persons in the 1980-81 fiscal year and cost approximately \$4.6 million.

While these amendments will alleviate two problems, it is recognized that they represent only a small step in relation to the pension system in Canada and the various possibilities for improvement. However, they are actions which can be done quickly and so they are being proceeded with immediately. Other broader issues will require more careful consideration, as a part of the Government's review of the Canadian pension system.

The attached synopsis provides more details on the new legislation.

Purpose and Description Of The New Legislation

1. Extension of Spouse's Allowance (SPA) Benefits

Purpose
The objective of the amending Bill is to ensure that anyone in receipt of an SPA benefit at the time of the death of the pensioner spouse will continue to have access to that benefit until the age of 65, provided the surviving spouse meets the other conditions for eligibility. At age 65 regular Old Age Security benefits would be payable.

Description

The OAS Act currently provides that an SPA benefit ceases to be payable six months after the death of the OAS pensioner spouse. The amending legislation deletes the current six-month extension and provides for the extension of SPA benefits to the widowed spouse up to age 65. The maximum amount of the benefit will remain the same. Upon the death of the pensioner spouse, the amount of SPA payable will automatically be recalculated on the basis of the surviving spouse's personal income only. Subsequently, the amount of SPA payable will be recalculated

on the basis of the spouse's personal income of the previous year. The maximum amount is reduced by that income at the rate of 75% up to the point where the OAS equivalent is eliminated and 50% thereafter. Regular quarterly cost-of-living increases will continue to apply and regular applications and income statements will be required annually as for all Guaranteed Income Supplement and SPA recipients.

The extension of SPA benefits will cease if the surviving spouse reaches age 65, dies or remarries. Also, the benefit will be suspended if the surviving spouse has been absent from Canada for more than six months.

This amendment will come into effect on the day on which it receives Royal Assent and will apply in the case of any person whose OAS pensioner spouse died during or after the month in which the Bill becomes effective or in the previous six months and who was entitled to SPA benefits for the month of the pensioner's death.

2. Elimination Of Imprisonment Provisions

Purpose

The purpose of the amending Bill is to remove the imprisonment test so that benefits to pensioners and their spouses will not be interrupted by a prison sentence.

Description

The OAS Act currently provides that where an OAS or SPA recipient is sentenced to prison for more than 90 days, the benefit is suspended until the release from prison. Where the prisoner has a spouse in receipt of SPA benefits the suspension of the OAS also results in suspension of SPA. This provision has resulted in financial hardship for prisoners and their spouses, especially if the benefit is not suspended in time and an overpayment results.

The amending legislation discontinues the application of the imprisonment provision to persons sentenced to prison on or after the date on which the amendment receives Royal Assent. For such persons benefits may continue to be paid during periods of imprison-

The Cheerleaders knew

Inside information or not, the Haliburton cheerleaders arrived in Lakefield with their "We're No. 1" banner, and that's just how things ended up as Haliburton's Senior Redmen captured the Kawartha 'A' Football championship over Lakefield College 10-6.

SPORTS

CLIFF BURKE — SPORTS EDITOR

Minden Minor Hockey off to slow start, 2 wins, 4 losses

MINDEN — The latesness of ice being put into the arena here appears to be the main reason for the slow start the minor hockey teams are experiencing. With one win in OMHA play and four losses, the teams are not in the condition of their opponents, who have been practising for more than a month in some areas like Haliburton and Woodville.

On Saturday afternoon at the centre this lack of conditioning really showed, as Woodville won two of the three games.

The Minden Atoms are the only unbeaten team as of Saturday evening as they put on a super display of crowd pleasing hockey. With only three practices they went out and whipped a fine Woodville squad 7-3. Led by the three goal performance of team captain Tom McLeod, the Minden boys went right to the attack, with Shane Burch scoring after just 15 seconds of the opening faceoff. Before the first period ended, McLeod had two, Dwayne Cooper and Derek Allison opened up a 5-2 lead. Sam Thornbury scored twice for Woodville.

The second period was scoreless but the talk of that period was young Craig Crowe, who had never played goal before and stood the Woodville snipers on their ears, especially Thornbury who is going to be a great one. Craig stopped no less than four clean breakaways plus many other very tough shots to preserve the Minden lead.

In the third period McLeod and John Wells scored for Minden while Thornbury completed his hat-trick. Coach Steve Harper and manager Barry Show have done a fine job and it looks like it could be a surprise championship team in March.

The Minden Peewees had it tough in their game against Woodville as Willie Thornbury and Gerry Kea buzzed around the net all through the game to each score a hat trick and more or less make life miserable for goalies Andrew Burk and Peter Allore. Sam Thornbury, who had just played most of the previous game with the Atoms, also scored to make the final count 7-3. Greg Newell blasted a shot from the point on the power play in the third to cut the Woodville lead to 3-1. Then Mike Gorveatt tipped in a shot a minute later to make it 3-2 and it looked like the Minden squad was going to come back, but Kea's goal that made it 4-2 seemed to take the fight out of our lads and from that point on it was all Woodville. Gorveatt scored his second of the night late in the game.

Although they lost this game, the peewees seem to have a string nucleus of players and with a few more practices and a couple more games, they should be real tough under the eyes of coach Gene Newell and manager Ross Walker.

The Kawartha Dairy bantams came through against Woodville for two periods and then their

legs just went dead from lack of icetime prior to the opening of this new season. With just two short practices, the bantams have now played two games in three nights and lost both. However, Barry Shaw's bantams will be heard from this year. There isn't a quitter on the team and they showed a lot of class in the Woodville contest.

Down 3-1 going into the second period, Minden fought back to tie the game, and then went ahead 5-4 at the second. But that second period took most of their energy and Woodville slammed home five goals in the third to Minden's one.

Tim Wood and Eldon Bull each picked up a pair of goals for Minden while Jeff Stamp and Robbie McLeod had singles. Mike Patterson and Keith Everson each had hat tricks for Woodville. Ken Jones picked up a pair and Randy Metherel had one. The final count, 9-6 Woodville.

On Thursday evening the Dairy boys started the season off against arch rival Haliburton and went down 4-2. Steve Smith of Haliburton scored three and Bernie Upton once, to lead the attack. Scott Hamilton and Andrew Shapiera replied for Minden.

Minden Novices played an exhibition game on Saturday afternoon at the centre and came up with a fine performance beating Fenelon Falls 3-0. Coach Tom Russell and manager Basil Stevenson have done a good job preparing this very young team for the season and they are going to be tough.

Jeff Francis did most of the damage against Fenelon scoring twice with Scott Russell getting the third goal on a rink long rush late in the third.

OHA Minden Juveniles got off to a shaky start Friday evening losing 4-1 to Oakwood. No details are available at press time other than the Minden squad

Hunt Camp burns down arson suspected by OPP

On October 30th the Owls Nest Hunt Camp on Trooper Lake in Gooderham, burnt to the ground. The club consisted of two buildings, one, a new 24x24 building and the other was the original 24x16 building.

OPP report that more than \$13,000 damage was set and suspect arson as the probable cause. The investigation is continuing by PC Bill Clendenning.

India's winter is a Festive Season. Republic Day is celebrated each year in January by performing parades, eating, beating of retreat, Folk dances, etc.

Winter in India

IT is with adequate justification that India is called a land of all seasons. Subcontinental in size, it is so vast, varied and full of contrasts that any time is the right time to visit it. There are more than the four usual seasons and they vary from north to south, from the great snow ranges to the warm sea coast, from the dry desert stretches to the tropical jungles and the sprawling central plain.

There is more to a season in India than a change of weather. It is a subtle change of mood, a reason for celebration, for festival, for music and painting and song.

Our winter is particularly welcome. It brings such a lovely blend of blue, sunlit days and crisp, cold nights in the north and mellow balmy days in the south. You can ski in the silent snowbound heights of Gulmarg and Kufri in the Himalayas or swim in the Arabian Sea at Kovalam. The big cities enjoy

a splash of concerts and plays, parties and exhibitions. Travel and sightseeing is a delight everywhere.

Delhi is the royal gateway to the north and a good starting point for a discovery of India. Many ages meet in Delhi, all blended into one stimulating personality. Wide tree lined avenues and gardens, vistas that open out to splendid stone and marble monuments that are Delhi's heritage from a rich past. One step and you are in New Delhi, the imperial complex that Lutyens built in glory of the British Raj. This is now the heart of modern India, the seat of Government and the nucleus of the city that New Delhi is today. The winter flowers turn the parks and gardens into a portrait of colour and the citizens eagerly await the Republic Day festivities which include the spectacular march past by the armed forces and the cultural pageant that follows it, folk dances and performances by massed bands

and illumination of public buildings. Incidentally, New Delhi will be celebrating its golden jubilee this year when it will be fifty years old.

Agra, the city of the Taj is only a few hours by road from Delhi and a few minutes by air. From Mughal Agra to romantic and chivalrous Rajasthan is a transition of infinite delight. This is the legendary land of pink palaces and sun-baked forts and colourful people. Jaipur the rose-red city is the capital of this formerly princely region. A few miles journey by road and you are in Bharatpur, the famous bird sanctuary, which in winter is the home of migratory birds from as far away as Siberia. It is not at all difficult to spot the Siberian crane among the five hundred or so species in this bird watchers paradise. The Siriska sanctuary is not far away and if you are lucky you might see the elusive tiger.

For those who love sport, Kashmir is ideal. An hour's flight from Delhi takes you to Srinagar, capital of the beautiful vale and a two hour ride by car to Gulmarg, more than ten thousand feet above the sea level. Coated with thick soft snow, Gulmarg's gentle slopes are turned into some of the finest ski gradients anywhere. Circled by pinnacles of white, the air seems to sparkle against the ice as skiers flash past. There is an intimate contact with nature among the grandeur of coniferous mountains. Gulmarg in winter is an experience of the Himalayas. The resort has a rope tow, three T-bar lifts and a double chair-lift. The beginner's slope makes learning easy, with perfect snow conditions and a gentle gradient. Trained instructors are available and the most modern equipment can be hired. There is more to Gulmarg than skiing. Skating, curling, ski-bobbing,

tobogganing are some of the other sports activities offered. All this is wrapped up in a blanket of white that can turn pink or blue, depending on the angle of the sun.

If you are looking for a beach holiday, then again winter is one of the best times for it. Go to Kovalam, a few miles away from the point where three oceans meet and here you can feel the five thousand years of history and soak in eternal sun.

Kovalam, endowed with one of the world's finest beaches, has mile upon mile of wheat coloured sand contrasting with the ice blue sea and a backdrop of gently swaying coconut trees. Added to the natural scenic beauty is India's first beach resort planned to international standards.

Then there is Goa which has beaches galore. Its one hundred mile long coastline is dotted with some of the loveliest beaches in the world. Calangute beach extending along the Arabian Sea in an inward arch of about 7 km may well be called the Queen of Goa beaches.

A former Portuguese colony, Goa is a blending of two cultures, Portuguese and Indian. There are magnificent 400 year old cathedrals: The Basilica of Bom Jesus where the relics of St. Francis Xavier lie and, the Convent of St. Cajetan and the Se Cathedral with its fourteen splendid altars. This particular cathedral took 75 years to build. Goa is also famous for its festivals, many of them religious. Goans recently celebrated a carnival in the true Latin fashion for three days with much music, dancing and masquerading in the streets. January 6 is celebrated Reis Magos to commemorate the visit of the Three Wise Men to the infant Christ.

There is an equally tempting beach on the east coast, just south of Madras. Mahabalipuram, is also known for the

famous shore temple and has been developed into a beautiful beach resort with cottages on stilts rubbing shoulders with a tiny, fishing village. The Shore Temple, a delicately carved structure was erected on the east shore more than twelve centuries ago. Here, history and relaxation get rolled into one. You may also taste the winter monsoon that makes the atmosphere pleasanter.

A bit further south, and you are in Pondicherry. The French were here for nearly three centuries and have left their imprint. The look and ambience is that of a French provincial town complete with statue of Joan of Arc and some good French cuisines.

But Pondicherry's atmosphere is pure Indian. Life here centres around the Aurobindo Ashram named after the zealous fighter for Indian indepen-

dence who later became a philosopher and sage. This ashram is also the origin of an important project; the creation of an international city—Auroville—on the hills overlooking Pondicherry. Auroville will be a haven of peace to all those seeking universal friendship and brotherhood.

There is much else to do in India in the winter. You can visit Calcutta, which is a dozen different cities all in one. It is a startling melange of mood and style and a strange mix of intellectual ferment and commercial preoccupation. Jet to the northeast and get a breathtaking view of the Kanchenjunga from Darjeeling or ride an elephant in Kaziranga to see the one-horned rhinoceros or fly to Bombay, vibrant city on the west coast and a base for the discovery of western India.

"If the postal rate goes up to three cents, you'll lose my business."

connector, draft hood and chimney base. He should also check the burner's performance, which takes in the pilot light, flame, burner and air grill.

The annual overhaul of a gas furnace should include inspection of the heat exchanger, a thorough cleaning of the interior, and inspection of the fan and the air filters, and also the water systems (if any).

With both oil and gas furnaces, the serviceman can further improve efficiency in other ways. If necessary, he should adjust the speed of air circulation and the timing of the fan's operation. Another improvement may be to install a smaller oil nozzle if tests show that the furnace is wasting fuel by producing too much heat.

ROOM & BOARD, 5 miles from Minden, parking, call after 6 pm, 286-1581. (41)

BEEF HIDES wanted. Call Kennedy Surplus, Haliburton 457-1771. (44)

In addition to all this, it pays to keep an eye on the furnace yourself to see whether it is working properly. Don't try to make adjustments; they could be risky both for the furnace and yourself. Some practical steps you can take are in ensuring that conditions in the home help the furnace to work efficiently, especially by keeping dirt out of the system, and by promoting proper air circulation both for the furnace burner and the delivery of hot air. More about this and other aspects of furnace care will be found in *The Billpayer's Guide to Furnace Servicing*. October is International Energy Conservation Month. What are you doing today to conserve energy for tomorrow?

REAL ESTATE — for sale or rent, 4 bdrm, spacious house in Minden Village, 2 baths, carpeted throughout, acorn fireplace plus many extras, \$34,500 or will consider renting. 286-1605 or (416) 937-1428. (43)

The Energy Savers

KNOW YOUR FURNACE AND KEEP COSTS DOWN

Are you, like many people, content to occasionally adjust your furnace's thermostat and yell for help if the furnace doesn't put out the heat on cue? You may be losing money in one way or another if that is all you do about it — and you don't need to go to evening classes or read thick technical manuals to find out why.

A little book called *The Billpayer's Guide to Furnace Servicing* will help you out. Drop a line to Box 3500, Station C, Ottawa, Ontario, K1Y 4G1, and it's yours free. In it Conservation and Renewable Energy Branch, Department of Energy, Mines and Resources simply explains how furnaces work, what to watch out for, what you can do to help, and what to expect from the serviceman who should be looking after the system for you.

If you are installing a new furnace, start right by having one match the size of your home. If it is too big, it "cycles" too often and wastes fuel. Also see that your model is approved for safety and sound construction. If it is, it will have a seal on it from the Canadian Standards Association, Canadian Gas Association or

Canadian Electrical Association. Then arrange to have the furnace overhauled and serviced on an annual basis by your fuel supplier or local furnace service company to keep it working efficiently and safely.

You can save up to 10% on the fuel bill if you have your oil furnace and burner cleaned and tuned at least once a year by a qualified serviceman. With an oil furnace, the serviceman should visually check the filling and vent pipes fuel indicator, oil lines, exhaust breeching or chimney pipe, furnace casing, warm air ducts, hot water pipes (if any), the burner and burner chamber.

The overhaul should include the exhaust breeching, damper, stack controller (a cutoff safety device), chimney base, interior of furnace, fan, air filters, oil burner and its accessories. The flue gas temperature, carbon dioxide content, smoke number and over-fire draft should all be measured with instruments. The furnace efficiency should be calculated and burner adjustments made if the efficiency is not satisfactory.

With a gas furnace, the serviceman's three visual checks should cover the vent
